UPDATED FIBA RESOURCES

FIBA continues to release great educational resources for referees. They have recently released and updated the following manual which you can view below:

- [**FIBA Manual for Table Officials \(2021\)**](#)

2021-22 CBOC POINTS OF EMPHASIS (POE)

We strongly encourage all referees to take the time to go through the document and familiarize yourself with this year's POEs.

Look out for more information on a future webinar that will cover the POEs in greater detail.

CBOC has now released the 2021-22 National Points of Emphasis on Game Plan, which you can view by clicking [here](#).

As a result of the pandemic and the lack of basketball played across the country, CBOC decided to rollover last years POE's.

It is also noted that last year Cam Moskal provided a voice presentation of the POEs and remains a great resource for this upcoming season.

You can watch the video by clicking [here](#) or by heading to Game Plan (under the Tools > Video tab).

2021-22 FIBA EXAM WINDOW OPENS NOVEMBER 1

It's that time again! The **2021-22 FIBA Exam** window will be offered through Game Plan from **November 1 – December 13.**

Further information on this year's exam process will be shared in the next couple of weeks to ensure that you are able to write your exam.

As you prepare to write your exam, there are a few resources that we encourage referees to start studying.
